Fold Line

1  
inch

## **Lina Loves Dribble Bib Pattern**

1. Print out the pattern as it is onto A4 paper or card. There is a one inch square indicated on the pattern to show whether it has printed out to scale.
2. Cut out the pattern and place it on the fold of your top fabric where indicated.
3. Cut out your fabric, and open it up to reveal the bib shape.
4. Do the same with your bottom fabric.
5. Pin the two pieces of fabric together, right sides facing and sew around the edge, where indicated by the dashed line, leaving a 2 inch gap to turn inside out.
6. Trim the edges of the bib as close to the sewn line as possible, ideally with pinking shears.
7. Turn the bib inside out through the gap left and use a knitting needle or similar to ensure that the corners are properly poked through.
8. Iron flat, making sure to fold under the fabric in the gap.
9. Sew around the edges of the bib, close to the edge and this will neaten the finish and close up the gap in the bib where it was turned out.
10. Place pencil marks where the poppers go and using a metal popper tool add the poppers, or sew on Velcro to fasten.
